

The Capacity You've Been Waiting For

The latest Lockwood innovations in one machine!

This Lockwood harvester is light weight, provides the best visibility and has improved flotation.

- Pressure-compensated rock protection for digger nose
- Dual Crary blowers provide balanced air flow
- Can-bus system with user-friendly joystick control
- No steering tie-rod eliminates build-up under machine
- Longer frame for better cleaning of the potatoes
- Hydraulic side elevator and rear cross drives
- Return to depth and return to center steering standard
- Two large tires allow tighter turning and more flotation
- A full line of cleaning tables are available
- Optional full width secondary cleaning tables

Specs

Model	674
Number of Rows	4
Row Spacing	32" - 38"
Digging Speed	2 - 5 mph
Headlands to Turn	23'
Digger Nose Width, Wide	152.5"
Digger Nose Width, Narrow	146.25"
Tractor PTO	225 hp
Base Machine (lbs)	24,500

Dual Blower System

Twin fans with controlled outlets for optimized air distribution.

Increased Visibility

The operator-friendly machine has the best visibility in the industry.

Lightweight Frame

High strength, lightweight and better flotation make this harvester a profit generator.
